ABOUT THE INSTRUCTOR

Tim Hare

Tim is an account manager within Protiviti's SharePoint support team, with a specific focus on SharePoint Power User and Nintex training. He supports users on a variety of Enterprise SharePoint 2010 and 2013 implementations.

Tim has thirteen years of IT Support experience, many of which were spent working for a non-profit association that catered to the financial industry. Tim's certifications include Microsoft Certified Desktop Support Technician (MCDST), and Microsoft Certified Technical Specialist (MCTS).

Protiviti SharePoint Solutions Training courses are led by SharePoint MVPs and SharePoint consultants who have developed their skills through years of hands on experience. Protiviti has developed detailed curriculum and an individual lab environment that enables students to immediately apply concepts and lessons contained within the curriculum.

Why invest in Protiviti SharePoint Solutions Training?

More than 100 million SharePoint licenses have been purchased and the most significant ongoing issue with the solution lies in poor User Adoption. This results from a lack of specific emphasis on helping staff understand and apply the benefits of the platform. Our MVPs and consultants apply years of experience in working directly with clients to increase both the use of SharePoint and the value of the investment for the organization.
